#### **DETAILED ACTION**

# Response to Amendment

This communication is responsive to the amendment filed 9/5/2008.

Claims 1-4, 6-8, 32, 35, 41 and 44-48 are pending in this application. Claims 1, 32, 35, and 41 are independent claims. In the amendment filed 9/5/2008, claims 1, 32, 35, and 41 were amended. This action is made Non-Final.

## Specification

The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required:

Claims 35, 41, 46 and 47 recite "a computer readable medium," but the specification does not mention a "computer readable medium." While the specification discloses "media," "medium" is not mentioned anywhere in the specification. The Examiner suggests that the Applicant change the claim language to be "media" instead of "medium."

### Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-4, 6-8, 44, and 48 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for lacking any description of particular structure in the specification.

The Appellant has failed to disclose any algorithm, and thus has failed to adequately describe sufficient structure, for performing the recited "means for" functions of claim 1.

#### Allowable Subject Matter

Claims 32, 35, 41 and 45-47 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: The prior art found does not specifically teach, "determining said selection of content information as a function of a majority decision weighted with said priority value of said cursors and the other information selected by another cursor among said plurality of cursors is displayed within an alternative window."

#### Inquiry

Any inquiry concerning this communication or earlier communications from the examiner should be directed to BORIS PESIN whose telephone number is (571)272-4070. The examiner can normally be reached on Monday-Friday except every other Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Stephen Hong can be reached on (571) 272-4124. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
